57th Annual Virginia State Crime Clinic Training Seminar

SEPTEMBER 27 – 29, 2023

8:30 am – 11:30 am **Emergency Management Training for Law Enforcement and Private Security**

Facilitator Allen Evans, Kilmarnock Police Department

Law enforcement and security personnel most of the time, are first to arrive on the scene. Coordinating the proper emergency response and resources to the scene is an important role placed upon us. The decisions we make at that scene in coordinating could mean the difference between life and death.

This course (7) Hour course provides sworn officers and private security personnel with a basic understanding of basic emergency management techniques that should be used in the performance of their duties in order to show & demonstrate the importance of integrating emergency management techniques to increase safety and to minimize the dangers that can result in the loss of life to other public safety personnel and the general public.

This course covers basic emergency management skills, understanding emergency management & action plans, coordinating training exercises, laws in VA regarding public safety/emergency management procedures, ICS/NIMS refresher, how to coordinate with other public safety-first responders and resources on emergency management training material.

This class involves PowerPoint lecture, short videos, small group exercise and encourages open discussion, experience/information sharing and networking with professionals in the class so we can all learn to be a resource to each other.

11:30 am – 12:30 pm Lunch (Sponsored)

12:30 pm – 2:30 pm **Continued from 8:30 am session**

2:30 pm - 2:45 pm Break

3:00 pm - 5:00 pm **Continued from 8:30 am session**

5:30 pm – 7:30 pm **Buffett**
*Time to unwind greet and meet
Great Door Prizes*

Friday, September 29, 2023

7:00 am – 8:00 am Hot Breakfast Buffet

8:00 am – 10:00 am **Apple Air Tag Cyberstalking**
Facilitator: Sean Fregoso, Special Agent Virginia State Police

This class will teach the student how to identify if you are a victim of cyberstalking by the use of a traditional GPS and more specifically an Apple Air tag. You will learn how an Air tag works, the frequencies used by Apple and how to locate an Air tag, even if the audio has been disabled.

10:00 am – 12:00 pm **Google Geolocating class**
Facilitator: Sean Fregoso, Special Agent Virginia State Police

Google webservices is more than just a search engine. They are a data collecting company that makes millions storing and selling your data. I will explain how to obtain data that is stored by Google and us that to assist with surveillance, data mining and how to use that data to solve cases.

12:00 pm Closing
